The global population is becoming more urbanised... In 2050, it is estimated that 70% of people will live in towns and cities. This phenomenon will lead to an increase in land costs and in noise pollution. It will result in the verticalisation of buildings combining accommodation, sports halls, offices, etc. As they get higher and higher, towers will need to offer new, enhanced places to live that are calm and bright.

By offering large sliding doorways, TIGAL thus maintains all the living space and enables it to extend onto the terrace. Its superior acoustic performance and its large glazed area maximise the quality of life indoors.

In parallel with this urbanisation, the planet is being subjected to numerous climatic changes, and buildings are becoming increasingly exposed to adverse weather.

TIGAL is a hybrid solution, combining the advantages of a sliding door with the performance of a window. Its patented central sealing system guarantees exceptional water-tightness performance – up to 4 times better than a traditional sliding door. With its high thermal performance and water-tightness, TIGAL has everything it needs to resist these increased risks and brave the elements on any exposed site.

In keeping with its DNA, Technal has paid particular attention to TIGAL's design, by combining sleek lines and concealed hardware for a balanced overall aesthetic. Purposefully designed for great ease of use, TIGAL is also innovative in its secure micro-ventilation system and provides smooth, silent operation. Its responsible design and development have allowed them to select 70% recycled materials and durable components. The profiles have been extruded from aluminium 4.0 (carbon footprint lower than 4 kg of CO₂ per kg of aluminium).
IDEAL ACOUSTIC PERFORMANCES FOR URBAN ENVIRONMENT

- Excellent sound-proof isolation up to: Rw (C, Ctr): 45 dB of acoustic isolation
- Double glazing 50 mm: R8.2 Si / 20 / 66.2 Si

PERFORMANCES

- Thermal:
  - Uw up to: 0.85 W/m²K (Ug: 0.5 W/m²K), triple glazing, Tlw = 0.63, Sw = 0.51
  - 1 leaf + fixed, L x H = 2.30 x 2.18
- Tightness:
  - Air permeability: Class A4
  - Micro-ventilation: Class A1
  - Water-tightness E1200
  - Wind pressure resistance: Class 3
    - Service pressure 1200 Pa
    - Security pressure 1800 Pa
    - Class 5 up to 3000 Pa (available end 2019)

SOFTWARE

Available in TechDesign, Tech3D and TechAcoustic

KEY FEATURES AND INNOVATIONS

INNOVATIONS
- Operation of the window: opens by internal dislodgement of 6 mm and then the opening part slides in parallel with the fixed part
- Hybrid system with multi-point locking system around the perimeter and patented water-tightness system.

LARGE DIMENSIONS
- Floor-to-ceiling heights possible up to
  - H: 2.70 m – W: 4 m (1 leaf + 1 fixed)
- Weight: up to 300 kg per leaf
- Glazing thickness up to 52 mm

DESIGN
- Visible or concealed opening
- Concealed hardware
- Concealed drainage

EASE OF USE AND ACCESSIBILITY
- Micro-ventilation:
  - Offset of 6 mm from the opening
  - Locking in security position
- Recessed threshold
- Disabled access threshold of 15 mm high
- Maintained performances
- Minimal manoeuvring effort: Class 1
MATERIALS AND PARTS

As with all TECHNAL systems, only the best materials and parts are used to minimise maintenance and ensure long-term performance.

- The aluminium profiles are extruded from alloys 6060 Building compliant with EN 12020, EN 573-3, EN 515 and EN 775-1 to 9.
- Fittings are cast from EN 12844 compliant Zamak 5.
- All gaskets are EPDM or TPE (Thermoplastic elastomer).
- The thermal breaks are made with PA6-6 (0.25 FV) and ABS.
- Screws are made from stainless steel.

FINISHES AND COLOURS

A wide range of finishes and colours are available to meet individual project requirements, enhancing existing buildings and offering architects and designers greater design freedom:

- Natural anodised in accordance with EN 12373: 2001.
- Polyester coating finishes in a wide range of colours in accordance with “QUALICOAT” instructions.
- TIGAL is also available in powder coated finishes in Technal exclusive colours for a stylish and modern appearance.
